# Time Out

for tots, teens and everyone in between

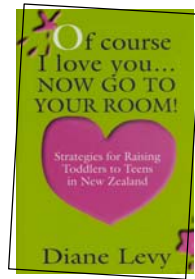

Timely and brilliantly helpful advice on how to manage your child

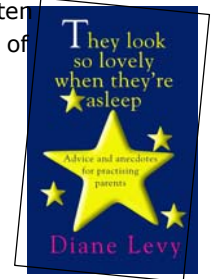

- Are you struggling with getting your tot to teen to do as they are told?
  - Is it hard to get Time Out to work effectively?
- Are there some days when you don't even *like* your beloved child?

Diane has developed **Time Out** into an effective, low-energy parenting strategy that zeros in on developing positive and pro-social behaviours. In clear and simple steps she shows how to get appropriate behaviour so that we can enjoy our children's company.

The parenting handbook that gives you everything you need to know. Find out about the different personalities in the family, how to handle your children's upsets and what to do about awful behaviour. There are great ideas for how to handle eating, sleeping, toilet training, homework and teen hassles.

The book of short, informative and often funny articles on the ordinary hassles of parenting. Ideal for the parent who is too exhausted to read a whole book but just might manage to read one article at a time. Articles cover sibling rivalry; running away; disciplining other people's children; building self-esteem and much more.
